

THE FORMULA FOR QUALITY

Quality Beyond Expectation in Every Molecule

Founder's Message Sanjay Gupta (Chairman & CEO)

Since our inception in 2019, **Siddhivinayak Enterprise** has been built on the principles of quality, commitment, and innovation. We are proud to mark our presence in the chemical industry by consistently delivering value-added dye intermediates that meet the dynamic needs of our customers.

At the core of our journey is a customer-centric approach—one that prioritizes long-term partnerships, mutual growth, and product reliability. We believe that the best solutions are crafted by combining deep chemical expertise with technological advancement, and that belief reflects in everything we do.

Our responsibility extends beyond business. We are equally committed to the social and environmental impact of our operations. Through initiatives in education, healthcare, and sustainability, we strive to contribute positively to the communities we are part of.

With an entrepreneurial spirit, an inclusive culture, and a talented team, we continue to grow with passion and purpose—setting new benchmarks and aiming for sustainable progress.

We invite you to be part of our vision—to create a better tomorrow through better chemistry.

SIDDHI VINAYAK ENTERPRISE
PLOT NO. 30-A KVN MEGHNAGAR-JHABUA (M.P.)

COMPANY PROFILE

Who We Are

Established in 2019, Siddhivinayak Enterprise is a fast-emerging name in the dye intermediate industry, driven by a strong foundation in chemical manufacturing and a clear vision for quality, reliability, and innovation.

Despite being a relatively young company, we bring sharp technical insight and modern manufacturing practices to the table—supported by a team of skilled professionals, process know-how, and a commitment to continuous improvement.

Through robust R&D capabilities, stringent quality control, and a focus on customer-centric solutions, we have steadily expanded our presence, catering to both domestic and international markets. We develop forward-thinking products that meet evolving industry needs and are committed to building long-term partnerships that create lasting value.

At Siddhivinayak Enterprise, we believe in delivering more than just chemicals— we deliver trust, consistency, and a drive for sustainable progress.

What We Do

At **Siddhivinayak Enterprise**, we manufacture high-quality dye intermediates — key raw materials for reactive, acid, and direct dyes. Our range includes **Sulpho VS, Sulpho OAVS, 3-5 DABA, 3:5 DNBA, STA**, and more, all crafted for **purity, performance, and consistency**.

Our production is driven by expertise in **Sulphonation, Condensation, Nitration, Alkali Fusion, and Amidation**, with every batch meeting strict quality standards and customer specifications.

We're committed to supplying reliable intermediates that enhance **color, quality, and consistency** in every dye application.

Our Vision

Through relentless innovation, diligent effort, and a strong commitment to responsible practices, Siddhivinayak Enterprise aspires to become a trusted name in the dye intermediate industry. We strive to lead through consistency, quality, and forward-thinking solutions, continually raising the bar in chemical manufacturing. Our dedication to continuous improvement and customer-first service will drive the evolution of our business and the success of our partners.

Our Mission

Our mission is to deliver high-quality, reliable dye intermediates while upholding the highest standards in Quality, Health, Safety, and Environment (QHSE).

Continuously diversify our product range to align with emerging market trends

Ensure that our operations remain globally compliant and risk-conscious.

Foster a positive, growth-oriented work culture that empowers our people.

Build lasting customer relationships through exceptional service and satisfaction.

At Siddhivinayak Enterprise, we are not just creating chemicals — we are creating value, opportunity, and a sustainable future.

Research & Development

At Siddhivinayak Enterprise, our R&D team focuses on developing high-quality dye intermediates using modern equipment like autoclaves and gas chromatography. We carry out careful testing and pilot trials to create products that meet customer needs and industry standards.

Our goal is to develop efficient, sustainable, and eco-friendly solutions that benefit both our customers and the environment. With a focus on continuous improvement, we ensure our products are always a step ahead in quality and performance.

Manufacturing Process

Our manufacturing process combines technology and skilled manpower to ensure fast, safe, and high-quality production. We follow organized workflows and strict quality checks at every stage to maintain consistency.

By improving our systems regularly, we reduce costs, save time, and meet customer requirements efficiently.

Quality Control

At Siddhivinayak Enterprise, quality is at the core of everything we do. We follow strict quality assurance practices to ensure every product meets high standards of purity, safety, and performance.

Our in-house testing systems use advanced analytical methods to maintain consistency and regulatory compliance.

With continuous monitoring and improvement, we deliver products that our customers can trust—every time.

Sustainable Environment

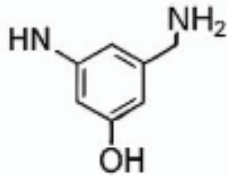

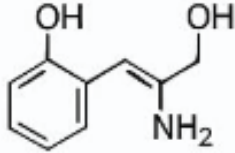

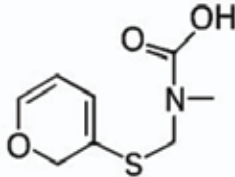

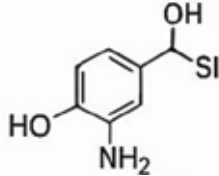

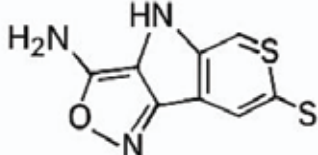

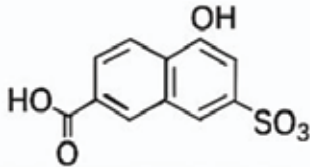

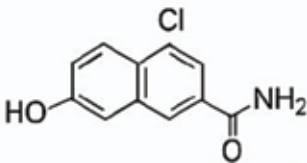

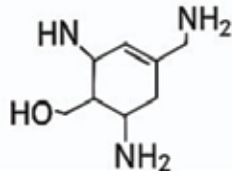

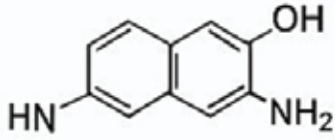

We are committed to reducing our environmental footprint through clean and energy-efficient practices. By carefully managing solid waste and effluent treatment, we contribute to a cleaner, greener future.

We also use different technology to reduce energy use in wastewater treatment, helping us lower carbon emissions and reduce reliance on fossil fuels.

Sustainability is not just a responsibility for us—it's a way of doing business.

Benzene Derivatives / Our Products

Trade Name	CAS No.	Structure
Sulpho VS	42986-22-3	
Sulpho OAVS	84214-57-1	
3.5 DABA (Di Amino Benzoic Acid)	535-87-5	
STA (Sulpho Tobias Acid)	81-16-3	
3.5 DNBA (Dinitrobenzoic Acid)	99-34-3	
4 Sulpho Hydrazone	33631-92-6	
K Acid	118-03-6	
VS	89-62-3	
H-Acid	90-20-0
